

Some Commands Help

- IMM detritus: <http://cortafuegos.fundacioace.com:11180/designs/imm/index-console.php>
- dos to unix format: `tr -d '\r' < input.file > output.file`
- sed

1. sustituir fin de linea por espacio: `sed ':a;N;$!ba;s/\n/ /g' a.txt > b.txt`
2. insertar headers a un csv: `sed -i '1iSubject,PSubject' guia_mri_proper.csv`

- flac to mp3: `for x in *.flac; do ffmpeg -i "$x" -qscale:a 0 "${x%.flac}.mp3"; done`
- para leer array en bash:

```
[osotolongo@detritus mopead]$ x=$(head -n 1 tmp/infoups.csv)
[osotolongo@detritus mopead]$ IFS=',' read -r -a array <<< "$x"
[osotolongo@detritus mopead]$ echo ${array[0]}
10001
[osotolongo@detritus mopead]$ echo ${array[1]}
20180705
```

- ordenar un csv: <https://stackoverflow.com/questions/14562423/is-there-a-way-to-ignore-header-lines-in-a-unix-sort>
- Actualizar dcm2niix:

```
$ git clone -b development https://github.com/rordenlab/dcm2niix.git
$ cd dcm2niix
$ mkdir build
$ cd build/
$ cmake
$ cp dcm2niix /nas/software/bin/
$ cp /nas/software/bin/dcm2niix /usr/local/mricron/
$ dcm2niix
Chris Rorden's dcm2niix version v1.0.20191031 GCC4.4.7 (64-bit Linux)
usage: dcm2niix [options] <in_folder>
.....
```

- Hacer fsck en lvm: <https://unixbhaskar.wordpress.com/2010/08/16/how-to-properly-run-fsck-on-root-or-other-partitions-including-lvm/>
